Product description

Description

This item is a 3D printer cooling blowing fan, which is made of high quality material. It is excellent for cooling heatsinks on hot ends, prints, or other cooling needs, bearing is high precision, long life and low noise.

Features

- Color: Black.
- Material: ABS.
- Size: 5x5x1.5cm / 2x2x0.6inch(LxWxH).
- Item Name: 5015 24V Turbo Fan
- Air inlet size: 31mm
- Outlet size: 20x15mm
- Current: 0.18A
- Noise: 25dBA
- Wiring: two lines, length of 1 meters
- Great cooler for cooling hot ends, extruder, prints andamp; other parts on 3D printer.
- High rotation speed with low noise.
- Rated voltage DC 24V, rated current 0.18A.
- Size 50mm * 50mm * 15mm.
- With 2 cable, 1m in length.

Package Including
3 x 5015 FAN 24V Circuit Board Heat Cooler Ventilator Small Fan for 3D Printer

Poor Quality

Reviewed in Canada on August 28, 2018

Verified Purchase

I would suggest finding another 5015 brand. Of the 4 I purchased (a single and a 3 pack), only one is still functioning. The fan blades on the other 3 all seized up. They're louder then a typical 5015, and the mounting holes are about 2mm off. While you'll still probably be able to get them mounted, it stresses the housing of the fan, likely contributing to the fan seizing. I've purchased a higher quality fan and have had no issues. I suspect these are factory seconds.

Verified Purchase

I bought these fans for my ender 3. I chose these due to having a 1 meter cable length. The cables are around 1 foot not 1 meter and the fans are a different brand than advertised. Haven't tried them out yet but so far not looking good.

Well you get what you pay for!

Reviewed in Canada on December 6, 2018

Verified Purchase

What do you say here..... Fans work great for about 20 hours. Then the bushings wear out and they get real loud and take a while to spin up. 8 bucks for 3 fans don't expect much!. I am sure these will be getting tossed pretty soon they just get worse by the day. But Hey for 8 bucks what do you want?

Connectors wired backward for connection on my device
Reviewed in Canada on August 9, 2018
Verified Purchase
Be aware that you may need to swap the black and red wires in the connector to align with your device. None of these worked for me, but at least two of them died due to their polarity being swapped relative to the connectors.

Don't even bother
Reviewed in Canada on October 29, 2018
Verified Purchase
Not worth it at all. All 3 had the wires come loose from the solder. The connection to begin with it poor, had to wiggle it around to even get them to power on.

Shorter than advertised
Reviewed in Canada on December 28, 2020
Verified Purchase
I bought these fans because the listing said that the cable length was 1 meter. Not as advertised. Only about 1 foot. Too short to get from the hotend to the controller.

Used to replace a faulty fan in my Humidifier... Specs are the same, and it fit perfectly. As advertised and doing the job as required.
